

Help UHN *Go Green*

We use 4000 bags every month for patients having surgery in our hospitals!

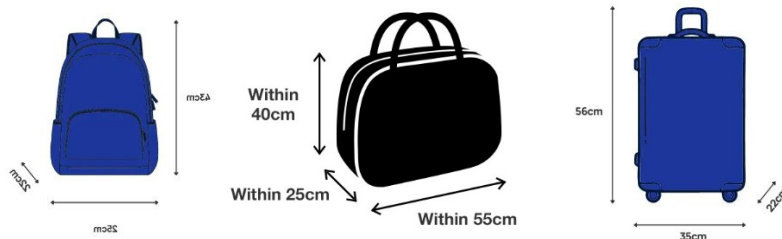

This produces the same carbon emissions as driving a car for **3000 km** or **driving from Toronto to Edmonton.**

How you can help:

Please bring **2 reusable bags** to hold your belongings during surgery.

- ✓ 1 small bag for your shoes
- ✓ 1 larger bag to hold all of your other belongings

This may include shopping totes, duffel bags or any other bag you would like.

Bags with a zipper are preferred to keep your belongings safe.

While in surgery, your bag is delivered to the unit you will be transferred to for recovery.

*Please leave valuables such as jewellery, watches and credit cards at home to keep them safe.

Thank you for helping UHN *go green!*
