therapeutic falls
EMPOWERING MOBILITY TOGETHER

Model for Spread

Organizational Readiness

- **Engage Leadership:** Safety & Quality, Bioethics, Legal, Falls Committee
- **Consider integration** with incident reporting system, current post-falls processes, health information system

Engage Team

- Form Advisory Group (leaders, providers, patients)
- Confirm dedicated co-leads
- Identify local champions

Prepare

- Adapt implementation resources
- Schedule team learning
- Establish evaluation framework
- Complete refection tool
- Develop communication templates: Team email, room and mobility aid signage, etc.

Team Learning

- Longer workshop(s) for allied health
- Shorter spotlight sessions for nursing and other team members
- Independent learning module as needed
- Review or draft process map

Launch Pathway

- Pilot with 1-2 patients
- Revise processes as needed
- Track metrics

Monitor & Refine

- Support champions
- Huddle to problem solve challenging patients
- Embed within existing processes (huddle, team rounds, care conferences)
- Celebrate!

Evaluate

- **Qualitative:** Provider focus groups and/or experience surveys
- Patient and family interviews (pre and post discharge if able)
- **Pre-post quantitative metrics**
- Disseminate locally and externally
